

Graybar Lighting Retrofit Solutions

Benefits of Financing Lighting Retrofit Projects through Graybar Financial Services®

Manage Cash Flow

Payments can be matched to the energy savings generated by the project and this can provide you with positive cash flow.

Overcome Budget Constraints

We can provide you with a variety of financing structures specifically designed to work with your budget. Here are a few examples:

- Monthly or quarterly payments
- Deferred payments
- Step payments

100% Project Financing

Bundle charges related to lamps, ballast, fixtures, installation and disposal into a single monthly payment. We'll even issue purchase orders to your vendors to reduce your administrative burden.

Preserve Working Capital

Avoid large capital outlays and preserve your working capital for other important projects.

Dedicated Sales and Service Support

With GFS, you will always talk to a live person so that you can get the support you need, when you need it.

State and Local Government Financing

GFS can provide state and local government customers with tax exempt pricing and structures unique to their market.
